## 1. INTRODUCTION

Availability of relevant and timely information is of utmost necessity in conduct of business by Police, particularly in investigation of crime and in tracking & detection of criminals. Police organizations everywhere have been handling large amounts of information and huge volume of records pertaining to crime and criminals. Information Technology (IT) can play a very vital role in improving the outcomes in the areas of Crime Investigation and Criminal Detection and other functioning of the Police organizations, by facilitating easy recording, retrieval, analysis and sharing of the pile of information. Quick and timely information availability about different facets of Police functions to the right functionaries can bring in a sea change both in crime & criminals handling and related operations, as well as administrative processes.

Creation and maintenance of databases on Crime & Criminals in digital form for sharing by all the stakeholders in the system is therefore very essential in order to effectively meet the challenges of crime control and maintenance of public order. In order to achieve this, all the States and Union Territories should meet a common minimum threshold in the use of IT, especially for crime & criminals related functions. CCTNS will cover all the Police Stations in the States/ UTs, and also the Circle offices, Sub-Divisions, District headquarters, Range headquarters, Zonal IG Offices and State/ UT headquarters. Necessary Hardware will be provided at all these locations including data centers at State/ UT and National headquarters. All these locations will be networked by providing appropriate high-speed connectivity for data transfer and sharing of information amongst various stakeholders.

### 3.4.7 Evaluation of Commercial Bids

The Commercial Bids of only the technically qualified bidders will be opened for evaluation. Since the payments to the SI will be made over a period of over four years (a minimum of 12 months for the Implementation Phase followed by three years for Operations and Maintenance Services), the DCF (Discounted Cash Flow) method will be used to compare different payment terms, including advance payments and progressive stage payments to the SI so as to bring them to a common denomination for determining lowest bidder. The State will evaluate the offers received by adopting DCF method with a discounting rate in consonance with the existing government borrowing rate. The DCF is defined in the Glossary of Management and Accounting Terms, published by the Institute of Cost and Works Accountants of India. DCF method would be used for evaluation of bids. The bid with the lowest Net Present Value (NPV) determined using the DCF method will be selected.

Detailed modalities for applying DCF technique are as below:

- 1) Net Present Value (NPV) method will be used for evaluation of the Commercial Offer. The Net Present Value of a contract is equal to the sum of the present values of all the cash flows associated with it. The formula for calculating NPV of a Commercial Offer is illustrated in Para (6) below.
- 2) Discounting rate to be used under the method is to be the Government of India's lending rate on loans given to State Governments. These rates are notified by Budget Division of Ministry of Finance annually. The latest one is Ministry of Finance OM No F5 (3) PD/2008 dated 30 October 2008 (as per which the borrowing rate is 9%). The State will evaluate the offers received by adopting Discounted Cash Flow (NPV) method with a discounting rate of 9%.
- 3) NPV will be calculated on the annual cash outflows.
- 4) Standard software for example 'Excel', 'Lotus 1-2-3' or any other spreadsheet, which comes preloaded as part of a personal computer will be used for NPV analysis.
- 5) The blended person month cost for 300 person months will be considered in the cash flows in the first year

6) The NPV will be calculated using the formula below:

$$NPV = C_0 + C_1/(1+r)^1 + C_2/(1+r)^2 + C_3/(1+r)^3 + C_4/(1+r)^4 + C_5/(1+r)^5 + \dots + C_n/(1+r)^n$$

Where,

$C_0 \dots C^n$  are the yearly cash outflows as illustrated below

- a)  $C_0$  is the Sum of the below components
  - i. Sub-total for Services Provided During Implementation Phase (Sum of items 1 – 8, refer to Pricing Summary Sheet)
  - ii. Blended Person Month Cost for 300 Person Months (refer to Pricing Summary Sheet)
- b)  $C_1$  is Cost of Operations and Maintenance Services for the 1<sup>st</sup> year after “Go-Live”
- c)  $C_2$  is Cost of Operations and Maintenance Services for the 2<sup>nd</sup> year after “Go-Live”
- d)  $C_3$  is Cost of Operations and Maintenance Services for the 3<sup>rd</sup> year after “Go-Live”
- e)  $C_4$  is Cost of Operations and Maintenance Services for the 4<sup>th</sup> year after “Go-Live”
- f)  $C_5$  is Cost of Operations and Maintenance Services for the 5<sup>th</sup> year after “Go-Live”
- g)  $r$  is the annual discounting rate as specified in Para (2) above

For Quality and Cost based Evaluation (QCBS), the following formula will be used for the evaluation of the bids.

The scores will be calculated as:

$$B_n = 0.3 * T_n + (0.7) * (C_{min} / C_b * 100)$$

Where

$B_n$  = overall score of bidder under consideration (calculated up to two decimal points)

$T_n$  = Technical score for the bidder under consideration

$C_b$  = NPV (as calculated above) for the bidder under consideration

$C_{min}$  = Lowest NPV (as calculated above) among the financial proposals under consideration.

The bidder achieving the highest overall score will be invited for negotiations for awarding the contract. In case of a tie where two or more bidders achieve the same highest overall score, the bidder with the higher technical score will be invited first for negotiations for awarding the contract.

JK Police reserves the right to present a contract to the bidder selected for negotiations. A contract will be awarded to the responsible, responsive bidder whose proposal conforms to the RFP and is, in the opinion of the JK Police, the most advantageous and represents the best value to the proposed project, price and other factors considered. Evaluations will be based on the proposals, and any additional information requested by the JK Police Proposed project will involve the payment for the contract based on not only successful delivery of the solution but also on the success of the project after "Go-live".

#### **4.5 Signing of Contract**

At the same time as JK Police notifies the successful bidder that its proposal has been accepted, JK Police shall enter into a separate contract, incorporating all agreements (to be discussed and agreed upon separately) between JK Police and the successful bidder. The Model agreement (Draft MSA) is provided in RFP Volume III. JK Police shall have the right to annul the award in case there is a delay of more than 30 days in signing of contract, for reasons attributable to the successful bidder.

#### **4.6 Suggestions on the Draft Contract**

- 2) However the bidder is requested to indicate as per the form specified in the Annexure, the changes the bidder desires to have and the reason for the same. This is only a solicitation of suggestions for change.
- 3) However, it is neither guaranteed that these requests for changes will be accepted in the final contract nor this process should be construed as any commitment from JK Police to consider those suggestions.
- 4) The bidder should not suggest any change that has financial or commercial implications during the execution of the contract and is against the basic spirit of procuring the services for the implementation of the project

I/We further understand that whether a proposed change forms part of Continuous Improvement or is a minor change that will have to be incorporated into the application as part of the Application Management Services will be determined by the<<Empowered Committee>>.
