

SPL.DGP (CRIME) MESSAGE

In an earnest endeavor to make the Crime Branch accessible to the public and make its work transparent a website has been designed and launched by the Crime Branch. The main objective of the site will be to make the premier investigating agency of the State Government accessible to the conscious and responsible public of the State and call for their participation to help us, put the criminals through the legal justice apparatus and submit them for judicial determination. We honestly believe that proper policing is not possible without the active involvement of general public so we would appeal to the consciousness of the responsible citizens to report all those acts which in their opinion are criminal against the person, property or the Govt. to our investigating agency. On our part we assure the complainants that all the genuine complaints will be responded on the net as well taken the cognizance of. I will personally be supervising this regularly.

The site will also carry general information regarding the progress of various important cases with Crime Branch to the extent it is possible so that the complainants or affected parties can have assurance that the Government is alive to their complaints and Crime Branch is carrying out the investigation as is required under law. Since Crime Branch is issuing regular look out notice, carrying out campaign against drugs, FICN, unauthorized non-banking finance transactions, cyber crime and many other subjects as such general public is invited to help us in carrying out our duties well. The site will be especially beneficial to prospective buyers of used cars which they can have verified from our site.

Spl. Director General of Police,
Crime, J&K.
